**Importance:** High

Mike,

I wanted to follow up our conversation with an e-mail to let you know that after speaking with the RME(Resident Maintenance Engineer), the SCDOT will approve a driveway for Tract 4 on the west side of the property 5 lf off the property line as it meets sight distance and makes it a safe location. You will still need to abide by the recorded plat and allow access for the 80 lf common easement for the other subdivided tracts for 1,2, & 3. I will cancel this driveway permit application and please resubmit online at SCDOT.org when you have acquired the property and are ready to install the driveway. Let me know if you have any questions.

Thank You,

Ryan D. Cunningham
